February 23, 2005
9 am – 3:30 pm

California Public Utilities Commission
505 Van Ness Avenue, Commission Auditorium
(Corner of Van Ness Avenue and McAllister Street)
San Francisco

The CPUC will hold a public meeting, chaired by President Peevey, on the issue of climate change. The purpose of this meeting will be to move "beyond energy procurement" and to begin to identify best practices for all CPUC regulated companies (electric, natural gas, telecommunications, water, and transportation). Opportunities to reduce greenhouse gas emissions related to business operations include fleet vehicle efficiency, building efficiencies, and overall reduction of energy consumption. The U.S. is the world's largest greenhouse gas emitter and is responsible for approximately 25% of the world's emissions. California policymakers and businesses have the opportunity to proactively address this issue, to demonstrate effective leadership, and to make a significant contribution to emissions reduction. Invited presenters include representatives from the academic, research, business, insurance, shareholder activist, and state government organizations. Business and industry leaders will also be asked to respond to a recent CPUC summary paper on the subject. In addition, the IOUs should be prepared to present their current and anticipated efforts to address climate change. Information about the meeting, including a link to the discussion paper and the agenda are posted at www.cpuc.ca.gov/static/industry/electric/climate+change/index.htm#meeting and can also be found on the CPUC's homepage at www.cpuc.ca.gov. All utilities are asked to RSVP to confirm their attendance and to discuss their presentations. To RSVP, and for further information, please contact Lainie Motamedi, CPUC Division of Strategic Planning, at (415) 703-1764 or lrn@cpuc.ca.gov.

	I01-09-002	Order instituting investigation on the Commission's own motion to assess and revise the New Regulatory Framework for Pacific Bell and Verizon California Incorporated.

Summary: On February 2, 2005, Natalie Wales, counsel to the Office of Ratepayer Advocates (ORA), met with Aram Shumavon, advisor to Cmmr. Brown, in San Francisco. Also present was Lee-Whei Tan of the ORA. Written materials (attached to the notice) were used. ORA discussed its Response to an Application for Rehearing of D04-09-061 (Application) filed by SBC California (SBC). ORA urged the Commission to deny SBC’s Application because the bases upon which SBC filed the application are not supported by Commission precedent or policy. ORA explained that the Commission has authority to order

utilities to reimburse ORA for hiring consultants to conduct audits pursuant to Public Utilities Code Section 314.5, and has exercised such authority in the past. ORA stated that it would like to move forward with a request for proposal for SBC's audit in a timely manner.

Pacific Bell Telephone Company, dba SBC California, for expedited dispute resolution of a right-of-way agreement with Roseville Telephone Company pursuant to 47 U.S.C. Section 224(c) and Decision 98-10-058.

Summary: THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION THAT WAS FILED ON FEBRUARY 3, 2005, AND APPEARED IN THE CALENDAR OF FEBRUARY , 2005. On January 31, 2005, 2003, Greg Gierczak, Executive Director – External Relations for SureWest Communications (SureWest), met with Tim Sullivan, advisor to Cmmr. Kennedy, and Lester Wong, advisor to Pres. Peevey, in two separate meetings in San Francisco, and later on the same day of January 31, 2005, Gierczak provided follow-up information to Lester Wong via telephone. Also present was Sean Beatty of Cooper, White & Cooper LLP, counsel to SureWest. A copy (attached to the notice) of Exhibit 201-C from the hearing was used during the meeting with Tim Sullivan. Gierczak explained that the SureWest pole attachment rate identified in the Final Arbitrator's Report was artificially understated, because it assumed that SBC CLEC would attach to every pole in SureWest's service area. During the meeting with Lester Wong, Gierczak also discussed Federal Communications Commission decisions setting forth the standards for establishing pole attachment rates.
